Gujarat Technology University

MY PROJECTS

☁ Weather-web

ab ABC Buddy

Portfolio

Weather-Web — 2025

A responsive weather application built using HTML, CSS, and JavaScript, with real-time data fetched from an external Weather API. This project allows users to search for any city and view current weather conditions instantly.

LIVE   https://checkcityweatheer.netlify.app/

ABC Buddy — 2025

An interactive and playful web-based ABCD learning tool for kids, built by Savan Rathod. Each alphabet triggers a sound and drops a related image with animation—making learning fun and engaging!

LIVE   https://acbwithfun.netlify.app/

My Portfolio — 2025

I developed a responsive and visually polished portfolio website using React.js, leveraging a modular component-based architecture for scalability and maintainability. The site showcases my front-end development skills through reusable components such as a dynamic hero section, animated service cards, and interactive UI elements.
